**PUBLIC NOTICE**

**Released: June 2, 1992**

**PETITION FOR RULE MAKING FILED**

**Comment Date: July 2, 1992**

**Reply Comment Date: July 17, 1992**

A petition for rule making filed on May 22, 1992, by Alcatel Network Systems, Inc. is being released today for public comment and designated RM-8004. The Petitioner proposes amendments to Parts 2, 21, 25 and 94 of the Commission's Rules to reallocate the 3.6-3.7, 3.7-4.2, 5.925-6.425, 6.525-6.875, 10.55-10.68 and 10.7-11.7 GHz bands to permit sharing by common carriers and private operational fixed microwave systems. The Petitioner also proposes amendments that for these bands would define licensee eligibility; prescribe channelization, minimum path lengths, minimum channel loading, and minimum capacity for bandwidth used; establish frequency coordination criteria; and establish antenna standards. Finally, the Petitioner references the relationship of its petition to proposals made by the Commission in its *Notice of Proposed Rule Making* in ET Docket No. 92-9, 7 FCC Rcd 1542 (1992), and to proposals made in a petition filed on March 31, 1992, by the Utilities Telecommunications Council, RM-7981.

Interested parties may file a statement in support of or in opposition to this petition, and reply to statements filed. RM-8004 must be referenced on the cover page of each statement or reply. Statements must be submitted by **July 2, 1992**, and replies to statements must be submitted by **July 17, 1992**.

The petition is available for inspection in the RM-8004 file at the FCC public reference room (Room 239), 1919 M Street, N.W., Washington, DC 20554. Copies of the petition also may be obtained from the Downtown Copy Center, (202) 452-1422. For further information, contact Tom Mooring, Office of Engineering and Technology, (202) 653-8114.
